

Aspie Quiz

Your score: 124 of 200

93% probability of being atypical (autistic/neurodiverse)

Aspie Quiz

Atypical talent

This group contains intellectually related atypical traits. The traits are related to strong interests that can become obsessive (e.g. having strong interests; hyper focusing; collecting information; good long term memory related to interests; figuring out how things work; making connections between things). Other traits are related to information processing (e.g. noticing details; finding patterns; unusual imagination; unique ideas). Some people have special talents (e.g. numbers; language; computers; music).

Diagnostic relation

A high score is related to Autism Spectrum Conditions (ASC) and Obsessive Compulsive Disorder (OCD).

Your group score: 8.9 of 10 (above average).

Detailed information about scoring

No	Question	Choice	Score
1	Do you tend to get so absorbed by your special interests that you forget or ignore everything else?	2	2.15
2	Do you have an avid perseverance in gathering and/or cataloguing information on a topic of interest?	2	1.75
3	Is it important for you to find a unique niche where you can acquire unique competence?	0	0.00
4	Do you have an urge to observe the habits of humans and/or animals?	2	1.85
5	Do you notice patterns in things all the time?	2	1.69
6	Do you have one special talent which you have emphasised and worked on?	2	1.62
7	Do you like to create routines for things you've figured out so you don't have to figure it out again?	2	1.59
8	Do you feel that you are a very special or unusual person?	2	1.69
9	Can things that might seem meaningless to others make sense to you?	2	1.37
10	Are you still fascinated by many of the things you were interested in when you were much younger?	2	1.40
11	Do you prefer to construct your own set of spiritual beliefs rather than following existing religions / belief-systems?	?

Aspie Quiz

Atypical perception

This group contains atypical perception traits. These traits can become a disability by causing sensory overload and even a complete shutdown. The need for routines and predictability to a large extent seems to be caused by acute perception and the related risk of sensory overload. The core traits are hypersensitivity to touch, sound, smell, taste, strong light, humidity, wind, heat and electromagnetic fields. Some people are less sensitive to pain.

Diagnostic relation

No direct, but autistic people often have differences in perception.

Your group score: 8.6 of 10 (above average).

Detailed information about scoring

No	Question	Choice	Score
22	Are you bothered by clothes tags or light touch?	2	2.42
23	Do you tend to shut down or have a meltdown when stressed or overwhelmed?	2	2.44
24	Are your eyes extra sensitive to strong light and glare?	2	2.13
25	Do you dislike when people walk behind you?	2	2.21
26	Do you have extra sensitive hearing?	2	2.11
27	Are you sensitive to changes in humidity and air pressure?	1	1.12
28	Do you dislike being hugged when you haven't asked for it?	2	1.89
29	Do you dislike it when people stamp their foot in the floor?	2	1.94
30	Do you notice odors that other people don't seem to notice?	2	1.68
31	Do you instinctively become frightened by the sound of a motor-bike?	0	0.00

56	Do you tend to play the same tune many times in a row?	2	1.74
57	Do you have an urge to jump over things?	1	0.77
			12.72 /
			29.50

Aspie Quiz

Typical communication

This group contains typical communication traits. The key trait is the ability to interpret and show typical nonverbal communication . The absence of these abilities lead to secondary problems (e.g. unaware of how to behave; unaware of boundaries; being misunderstood; missing hidden agendas; being unaware of others intentions; misinterpreting figures of speech, idioms and allegories; literal interpretation; not knowing when to apologize; saying inappropriate things; seemingly poor empathy).

Diagnostic relation

A low score is related to Autism Spectrum Conditions (ASC).

Your group score: 1.4 of 10 (below average).

Detailed information about scoring

No	Question	Choice	Score
58	Do you tend to express your feelings in ways that may baffle others?	2	2.54
59	As a teenager, were you usually unaware of social rules & boundaries unless they were clearly spelled out?	2	2.48
60	Do you tend to say things that are considered socially inappropriate when you are tired, frustrated or when you act naturally?	2	2.33
61	Do you find it easier to understand and communicate with odd & unusual people than with ordinary people?	2	2.33
62	Do others often misunderstand you?	1	1.17
63	Do people sometimes think you are smiling at the wrong occasion?	0	0.00
64	Is your sense of humor different from mainstream or considered odd?	2	1.89
65	Have others told you that you have an odd posture or gait?	2	2.02
66	Do you tend to interpret things literally?	2	2.04
67	Is it hard for you to see why some things upset people so much?	2	1.97
68	Do you fail to understand pop culture, things like 'being in style' or why people jump onto the latest trend?	2	1.91

Aspie Quiz

Atypical relationships

This group contains atypical relationship and attachment traits. The main trait is a strong attachment formed at a distance through observation rather than conversation. Related to the attachment is being protective, learning routines, walking behind, and sensing presence. Some people get taken advantage of and some feel persecuted because of their preferences. Differences in eye contact is here to, with atypical people having a preference for long eye contact with people they like, which can lead to accusations of staring, and no eye contact with people they dislike in conversations.

Diagnostic relation

A high score is related to "attachment disorders" and paraphilias.

Your group score: 5.0 of 10 (average).

Detailed information about scoring

No	Question	Choice	Score
69	Have you been accused of staring?	2	2.29
70	Do you have to keep an eye out to stop people from taking advantage of you?	2	1.95
71	Do you feel as if you are being persecuted in some way?	1	0.96
72	Have you experienced stronger than normal attachments to certain people?	2	1.81
73	Have you sensed that somebody was around you even when you couldn't see anybody?	0	0.00
74	Do you worry your friend doesn't really like you?	0	0.00
75	Do you realize hours later that somebody that you have a romantic interest for actually showed interest for you, and then feel bad about the missed opportunity to connect?	2	1.72
76	Do you tend to look a lot at people you like and little or not at all at people you dislike?	0	0.00
77	Do you have, or used to have, imaginary relationships?	0	0.00
78	Do you have unusual sexual preferences?	1	0.83
79	Did you feel lonely as a child?	2	1.59
80	Do you prefer to learn the character of a potential romantic partner through observation rather than conversation?	0	0.00
81	Do you cry about nothing?	0	0.00
82	Do you like to protect people you are attached to even when they didn't ask for it?	2	1.17
83	Have you been talked into having sex even if you really didn't want to?	2	1.09
84	Do you tend to get romantic feelings for people that persistently shows interest for you?	0	0.00
			13.42 /
			26.59

Aspie Quiz

Typical relationships

This group contains typical relationship and attachment traits. Traits are related to the typical process of finding a partner, dating, courtship and sexual intimacy. The intimacy traits defines the norm in society and aim at creating and maintaining attachments with sex. People that dislike this norm often identify as asexual.

Diagnostic relation

A low score is related to intimacy problems

Your group score: 4.2 of 10 (average).

Detailed information about scoring

No	Question	Choice	Score
85	Are you good at team-work?	1	0.79
86	Do you find it natural to wave or say 'hi' when you meet people?	2	0.00
